

Sports Equity Monitoring

Whilst it is not compulsory that this section is completed, the following paragraph explains why it is important.

Sport can and does play a major role in promoting the inclusion of all groups in society; however, inequalities have historically existed within sport, particularly in relation to gender, race and disability. British Cycling is committed to promoting and developing sports equity, which is about fairness in sport, equality of access, recognising inequalities and taking steps to address them. By monitoring the profile of young people in our clubs we can identify any issues relating to under-representation of different groups and can develop strategies to ensure that all young people have the opportunity to develop and progress in cycling.
